

SCIENCE CAMP

Science camp was a lot of fun. I went with the fifth and sixth graders from my class. The Phoenix Christian School teachers invited us and I met some of them and became friends with them. We dissected owl pellets and found out what they ate. After that, we made ice cream. It is really easy to make ice cream. At night we would all meet together and sing songs, do skits and worship God. One day we went to a fish hatchery and fed the fish, then we went hiking. The hike was really hard but really fun. There was a little creek that ran all through the camp, and when we went hiking we saw a big waterfall. One of the things I liked about the camp was the food, we had tacos, cheeseburgers, and other things. It was a blast! *Brett Cline*

We went to Tonto Rim Science Camp. We dissected owl pellets and ate ice cream that we made. We also played basketball and went on a hike. Science Camp was very fun. We also played with oobleck, a substance that is made out of water and cornstarch. The oobleck was hard if you tapped it but was oozing if you just held it. *Dylan Frye*

For the three days of science camp, I loved almost everything they planned out for us. The hike was the most thrilling, exciting hike of my life. The greatest of those three days was learning how to make ice cream with two quart size bags, one gallon bag, ice and vanilla. Also, I learned about Bartholomew and Oobleck, Oobleck is made out of corn starch and water. I, Elias Montanez, recommend Science Camp to anyone who loves science and camp. *Elias Montanez*

It was so fun at Science Camp. It was a good temperature in the afternoon, but in the morning and night it was freezing. Everyone was nice and we got along. The activities like the compass course, the hike and Oobleck was great. You will love it there. *Aliyah Montanez*

I had a great time at Science Camp and I personally enjoyed the hike because we got to see the beautiful scenery and the creeks. When we got to dissect owl pellets, found a rat skull, mouse claws and a lot of bones. It was really exciting to play with the oobleck because when you touched it, it would become a solid. When you picked it up it would turn into a liquid. It was amazing to see the energy of salt and ice make the ingredients for vanilla ice cream to freeze and be ready to eat. We also got to learn how to read a compass, the degrees and different directions. *Madelynn Manzo*

Ephesians 3:20—21 Now to Him is able to do exceedingly abundantly above all that we ask or thin, according to the power that works in us, 21 to Him be glory in the church by Christ Jesus to all generations, forever and ever. Amen.

Thank you to everyone who participated in making the Silent Auction a successful event. We received over \$7000 from the auction and the dinner.

Once again God is so good in providing for the school. These funds will enable us to continue the year in the black as well as help pay the increased license fee of \$2000 for the preschool.

We praise God for His goodness and the generosity of families from Calvary Chapel and CCS.

Money was given for every item on the Teacher Wish List!

Please join pastor Jim in praying for funds to provide tuition for all families interested in having their children attend CCS!

Calvary Christian School is offering a parenting class featuring the video series by Craig Caster of Family Discipleship Ministries. This 10 week class begins Wednesday March 31, 6:45 p.m.

If you are not able to attend Wednesday nights we will also show the video on Friday mornings at 8:30 beginning April 2.

Chick-fil-A
Cows have spirit!!!

Voice and Piano Lessons Melanie Bristol 480-264-3824

Calvary Chapel Resurrection Celebration

Good Friday 6 p.m. (no childcare)

Resurrection Sunday April 4th

Sunrise Service 6 a.m. (no childcare)

Church and Sunday School 9:00 and 11:00 a.m.
